Tree	
	Corymbia ficifolia 'Wildfire'
	GRAFTED FLOWERING GUM
Description	This is a tough and compact Australian native which puts on a brilliant display of fiery red flowers throughout the summer months, providing an abundance of food for nectar loving birds. This variety forms a dense canopy consisting of numerous branches and large, glossy dark green foliage which is highlighted by the lighter green undersides of the leaves. During the warmer months new foliage emerges with a reddish tinge.
